

Keystone Montessori Preschool Whittier

Dear Parent ,

Thank you for your interest in our school. We have enclosed an application in your information packet. It will positively impact on your child.

The curriculum for our school based on the teaching of Dr. Maria Montessori and offers a developmentally appropriate curriculum for children 2 years through 5 years. The focus is on the whole child-Physical, emotional, social, cognitive, creative, and artistic development, is equally stressed.

At all levels, our teachers spark a child's curiosity, encourage critical thinking and instill within your child a joy for life-long learning. Our program for toddler, preschooler, Pre-K ages children are conducted in a warm, loving, nurturing environment, where Montessori Teachers and caregivers invest heavily in your child. Our Classrooms feature bright, airy interiors designed to stimulate with toys and materials that encourage eye/hand coordination and cognitive ability. Also learn about Practical life, begin their studies, and play indoors and out. PreK children follow the curriculum outlined at each level. All children are gently taught how to solve problems among themselves with a teacher acting as mediator.

During your visit to our school, You will have a opportunity to tour the complete facility, observe a Montessori Classroom in session, and have your questions answered by the school's director. You will also be provided with a parent handbook after you register that you may reference should you need more information about our program.

We look forward to sharing your child's success with you

Sincerely

Ms.Bhagya Wijewardane
